

ABSTRACT

A Lock-In Training system. The Lock-In Training system can include an appropriately programmed Web site and a user computer. The Lock-In Training system can also include an appropriately programmed stand-alone computer. Some embodiments of the invention allow student users to efficiently learn materials by taking Lock-In Training courses. A Lock-In Training course may include one or more Lock-In Training sessions. These sessions may include one or more Lock-In Training parts. These parts can include a group of questions and answers. The answers can include one or more keywords. A student user can lock-in material by entering keywords in response to questions. The questions may be presented in Introductory rounds and/or Retention rounds on one or more training days.
